Civil Engineer with international experience in construction materials testing, QA/QC systems, and laboratory accreditation (ISO/IEC 17025:2017). Strong background in geotechnical and pavement materials (soil, asphalt, concrete) with experience supporting infrastructure and transportation projects in Saudi Arabia and the Philippines. Proven ability to lead quality systems, conduct technical testing, and support engineering compliance in high-standard environments. Seeking opportunities as a Civil Engineering Technologist, Materials Technician, or QA/QC Technician in Canada's construction and infrastructure sector.

EXPERIENCE

2021-2023

ENGINEERING SERVICE QA-QC MANAGER

OSSOS AL-TASHAID FOR MAINTENANCE - **SAUDI ARABIA**

Responsible for Ministry of Transport (Saudi Arabia) laboratory's application and compliance for ISO/IEC 17025:2017 Accreditation. Provides technical support for the laboratory services.

- Developed and implemented ISO/IEC 17025:2017 standard for the laboratory
- Planned, organized and audited the whole laboratory's activities and operations
- Provided technical support and training to Saudi Engineers and Technicians
- Supervised testing of highway construction materials (Soil, Aggregate, Asphalt, Concrete)

2018-2019

Increased productivity by handling all Interior Health Authority – CDC Contract samples by:

- Entering work orders in their database (95.41% Precision rate)
- Labeling all incoming samples (Total of 7939 samples received in 4 months)
- Confirming requisition form's discrepancies with Account Manager or Client (as needed)
- Updating work orders with additional analysis and/or revisions

EDUCATION

2023-2025

COMPUTER INFORMATION SYSTEM DIPLOMA

OKANAGAN COLLEGE – KELOWNA CAMPUS, CANADA

- GPA: 93.18 **(A+)**
- Dean's List (All Semesters)

2008-2013

B.S. CIVIL ENGINEERING

MAPUA INSTITUTE OF TECHNOLOGY, PHILIPPINES

- GPA: 3.8
- Philippines Professional Licensure Board Examination for Civil Engineer 2015 – **Top 1**

SKILLS

- Construction Materials Testing (Soil, Asphalt, Concrete)
- QA/QC Systems & ISO/IEC 17025:2017 Compliance
- Laboratory Operations & Field Testing Support
- Pavement & Highway Engineering Support
- Technical Reporting & Data Documentation
- Engineering Standards (ASTM, AASHTO)
- Project Coordination & Field Sampling
- Inspection & Quality Control Procedures
- Data Entry & Work Order Management (Engineering Labs)
- Strong Analytical & Problem-Solving Skills
- Thorough, precise and capable of maintaining accuracy in tasks
- Proficient in **Adobe Photoshop & Premiere Pro**
- Proficient in **M.S. Office Word, Excel & PowerPoint**

ACCOMPLISHMENTS

2021

“ISO 17025:2017 PJLA ACCREDITATION”

MINISTRY OF TRANSPORT CENTRAL LABORATORY– SAUDI ARABIA

- Accreditation Number: 114646 (L21-263)

2020

“ISO 17025:2017 TRAINING COURSE”

BSI TRAINING ACADEMY – SAUDI ARABIA

- Testing and Calibration Laboratories

2019

“ISO 9001:2015 TRAINING COURSE”

BSI TRAINING ACADEMY – PHILIPPINES

- Quality Management Systems

2016-2017

“STRUCTURAL PAVEMENT DESIGN FOR SAUDI ARABIAN ROADS”

NATIONAL RESEARCH PROJECT – SAUDI ARABIA

- Member of a research team
- Undertake research and testing in accordance with AASHTO/ASTM Standards
